Hardy Wild Flowers, Ferns Etc.

Rock Garden «» Pool Plants

"If it grows in the wild - - we supply it"

TO THE NATURE LOVERS, we offer this catalog and we hope it will help you to more thoroughly enjoy your life Out-of-Doors. Beautify your Garden as Nature intended. We have specialized in supplying all varieties of Hardy Wildflowers as well as other Ornamental Plants for beautifying your garden. We will help you plan your wild flower garden, water lily pool, and rock garden upon request. No charge for information through correspondence. Personal planting supervision on large scale plantings available at nominal cost.

ANDY'S WILD FLOWER GARDENS

Silas Anderson, Jr., Proprietor

665 NORTH MAIN STREET

OSHKOSH, WISCONSIN

WILD FLOWERS IN YOUR GARDEN

Did you ever stop to think that all of the flowers under cultivation today were originally, and some of them still are growing wild somewhere on this earth? True it is, most of them have been improved by selection and hybridization. You have no trouble whatsoever growing the hardy plants that originally grew wild in climates similar to ours such as the tulips, phlox, etc.

What have you in your garden that will compare in beauty with our own Shooting Star (*Dodecatheon media*) or the beautiful Dutchman's Breeches (*Dicentra cucullaria*)? What plant have you in your garden as odd as the Jack-in-the-Pulpit? What plant have you that has the pure, sweet odor of the Trailing Arbutus (*Epigaea repens*)? What plant have you that will gladden the hearts of the kiddies as will plenty of the different Violets planted under and around your shrubbery?

So why not try some of our own Wild Flowers? They are all hardy and if given the same care you give your hardy perennials as to the best growing conditions you will have no trouble in establishing some fine beds of our "forest gems."

HARDY PERENNIAL WILD FLOWERS FOR A SUNNY GARDEN

The smaller varieties are ideal for the sunny rock garden.

Alum Root (Coral Bells). (*Heuchera*)

Height 18 inches. Flowers whitish-green. May.

American Pasqueflower (*Anemone pulsatilla rubra*).

Height 12 inches. Flower reddish-purple.

Bellwort, large flowered (*Uvularia grandiflora*).

Height 12 inches. Flowers creamy buff. April-June.

Blazing Star (*Liatris scariosa*)

Height 18 inches. Flowers rosy-purple, late summer.

Black Eyed Suzan (*Rudbeckia hirta*).

Height 18 inches. Flowers golden yellow. Summer.

Blue Eyed Grass Widow (*Sisyrinchium angustifolia*).

Height 8 inches.

Bluets (**Quaker Ladies**). (*Houstonia longifolia*).

Height 6 inches. Flower blue. April-October.

Jack-In-The-Pulpit

Butterfly Plant (*Asclepias tuberosa*).

Height 1 to 2 ft. Flowers bright orange. Summer.

Columbine (*Aquilegia canadensis*).

Height 8 to 20 inches. Flowers yellow and red.

False Solomon Seal (*Smilacina racemosa*).

Height 1 to 2 feet. Flowers white. May.

Field Buttercup (*Ranunculus acris*).

Height 18 inches. Flowers deep yellow.

Four O'Clock (*Allionia hirsuta*).

Height 18 inches.

Golden Alexander (*Zizia cordata*).

Flowers golden.

Harebell (*Campanula rotundifolia*).

Height 12 inches. Flowers blue. Blooms freely.

Jacob's Ladder (*Polemonium van-bruntiae*).

Height 2 to 3 feet. Flowers blue violet. May-July.

Partridge Berry (*Mitchella repens*).

Trailing Evergreen. Flowers white and pink. Moderately acid soil.

Pearly Everlasting (*Anaphalis margaritacea*).

Height 1 to 3 ft. Flower white, late summer.

Pussy Toes (*Antennaria dioica*).

Height 6 inches. Flowers creamy white.

Pale Corydalis (*Corydalis sempervirens*).

Height 1 to 3 feet. Flower pale pink. Summer.

Shooting Star (*Dodecatheon media*).

Height 1 to 2 feet. Flowers white and rose.

Smooth Aster (*Aster laevis*).

Height 2 to 4 feet. Flowers light violet blue. Fall.

Sun Drops (Large). (*Oenothera fruticosa*).

Height 15 inches. Flowers pure yellow. Early summer.

Upland White Aster (*Aster ptarmicoides*).

Height 12 inches. Flowers white.

Wild Bergamot (*Monarda fistulosa*).

Height 2 feet. Flowers Pale lilac, summer.

Marsh Mallow (*Hibiscus moscheutos*).

A beautiful plant 3 feet high with white, pink or red hollyhock-like flowers 6 inches across. Flowers in summer. (See illustration).

HARDY PERENNIAL WILD FLOWERS FOR SHADY PLACES

Plant on north side of building, wall, tall thick hedge, in a thick woods or a shaded rock garden.

They prefer a sandy loam composed of at least 25% leaf mold, that black moisture retaining top soil of the forest. If you live in a section where this soil is not procurable, we can supply same. (See Humus list).

Most wild flowers detest clay and manure. Use leaf mold or our No. 10 "Wild Life" Humus for fertilizer.

American Columbine (*Aquilegia canadensis*).

Height 8 to 20 inches. Color yellow and red. A desirable rock garden plant. Grows well in shade or sun.

American Turk's Cap Lily (*Lilium superbum*).

Height 2 feet. Flowers orange-yellow. Plant in moderately acid soil.

Black Root (*Sanguinaria canadensis*).

Height 6 inches. Flower white. Moist sandy loam. Shade.

Blue Bottle Gentian or Closed Gentian (*Gentiana andrewsii*).

Height one foot. Flowers violet blue.

Dutchman's Breeches (*Dicentra cucullaria*). (See illustration).

Height 6 to 8 inches. Flowers white and rose.

False Solomon Seal (*Smilacina racemosa*).

Height 1 to 2 feet. Flowers white.

Indian's Plume or Bee Balm (*Monarda didyma*). (See illustration).

Height 2 feet. Flowers bright red.

Jack-In-The-Pulpit or Wild Turnip (*Arisaema triphyllum*).

Height about 12 inches.

Joe Pye (*Eupatorium purpureum*).

Height 4 to 6 feet. Flowers purple.

Partridge Berry (*Mitchella repens*).

Trailing evergreen. Flowers white and pink. Moderately acid soil. Plant under evergreens.

Purple Loosestrife (*Lythrum salicaria*).

Height 2 to 4 feet. Flowers rose-purple. July to September. Quite showy.

Painted Trillium (*Trillium undulatum*).

Height 12 inches. Flowers white painted with purple at base. Prefers cold damp leaf-mold.

Round Lobed Hepaticia (*Hepatica triloba*). (See illustration).

Height 12 inches. Flowers pink and dark purple. Very early. Plant in shade or rock garden.

Dutchman's Breeches

Indian's Plume

Shooting Star or American Cyclamen (*Dodecatheon media*). (See illustration).
Height 1 to 2 feet. Flowers white and rose.

Spring Beauty (*Claytonia virginica*). (See illustration).
Height 6 inches. Flowers pale pink.

Trout Lily, Dog Tooth Violet or Adder's Tongue (*Erythronium americanum*).
Height 6 inches. Flowers yellow.

Snow Trillium (*Trillium grandiflorum*).
Height 12 inches. Flowers white.

Star Flower (*Trientalis americana*).
Height 4 inches. Flowers white.

Squirrel Corn (*Dicentra canadensis*).
Height 6 inches. Flowers pink, Fragrant.

Tall Lungwort (*Mertensia paniculata*).
Height 12 inches. Very good.

True Forget-Me-Not (*Myosotis scorpioides*).
Height 6 inches, flower light blue. Grows best in moist places.

Virginia Bluebell (*Mertensia virginica*).
Height 1 to 2 feet. Flowers blue, buds pink.

White Turtlehead (*Chelone glabra*).
Height 1 to 2 feet. Flowers white to rose in autumn.

Wintergreen (*Gaultheria procumbens*).
Low evergreen. Height 4 inches. Flowers white, berries red. Plant in moist shade. Plenty of humus. Cover with leaves until established.

Wood Lily (*Lilium philadelphicum*).
Height 2 feet. Flowers orange-scarlet. Moderately acid soil.

Wood Sorrell (*Oxalis acetosella*).
Height 4 inches. Flowers white. Acid soil.

VIOLETS

Sweet White Violet (*Viola blanda*).
Height 4 inches. Flower white. Slightly fragrant. Moist shade.

Blue Marsh Violet (*Viola cucullata*).
Height 6 inches. Flowers deep or pale violet blue. Moist shade.

Johnny Jump-Ups (*Viola tricolor*).
Height 4 inches. Flowers yellow and purple pansy-like. Garden.

Bicolor Violet (*Viola pedata bicolor*).
Height 6 inches. Flowers blue with upper petals much darker. Garden.

Hepatica

Birds-Foot Violet (*Viola pedata*).
Height 6 inches. Flowers large, deep purple. Prefer dry sandy soil in open sun.

Downy Yellow Violet (*Viola pubescens*).
Height 6 to 12 inches. Flowers yellow veined with purple. Plant in dry shade.

Sand Barren Violet (*Viola adunca*).
Height 5 to 6 inches. Flower light blue. Sand loam. Sun or half shade.

Butterfly Violet (*Viola papilionacea* (Common Blue)).
Height 3 to 7 inches. Flower violet purple. Sun or shade.

Palm Leaved Violet (*Viola palmata*).
Height 6 inches. Flower blue. Sun or shade.

Sweet Violet (*Viola odorata*).
Height 4 inches. Flowers purple, fragrant. Open sun.

FERNS

Many people have trouble in raising Ferns and for but one reason:

They buy or collect them and then plant them anywhere around the house without regard to their likes and dislikes.

Ferns, as a rule, dislike clay, lime and ashes, so be particularly careful in preparing the ground where used for foundation planting. To successfully grow them prepare the soil and plant according to the following classifications and they will grow "like weeds."

- A. **Soil for Ferns.** Indifferent to acidity. 2 parts leaf soil or No. 10 "Wild Life" Humus, 1 part clean sharp sand, 1 part garden loam (no clay—no lime).
- B. **Soil for Ferns.** Circumneutral. Prepare soil same as No. 1.
- C. **Soil for Ferns.** Sub-acid. 2 parts acid soil (see acid soil formula) or No. 20 "Wild Life" Humus, 1 part fine white sand, 1 part garden loam (no clay—no lime).

Ferns For Open Sun Culture.

For porch and foundation planting and sunny rock gardens.

Soil

- A. **Interrupted Fern** (*Osmunda claytonia*) 2 to 3 feet.
- B. **Ostrich Fern** (*Pteris nodulosa*) 2 to 4 feet.
- A. **Lady Fern** (*Athyrium filix femina*) 2 to 3 feet.

Ferns For Dry Shady Places.

For under shrubbery and trees.

Soil

- A. **Interrupted Fern** (*Osmunda claytonia*) 2 to 3 feet.
- A. **Christmas Fern** (*Polystichum acrostichoides*) 1 foot.
- A. **Leathery Wood Fern** (*Dryopteris marginalis*) 1 to 2 feet.

Ferns For Moist Shady Places.

For shady rock gardens.

Soil

- C. **Toothed Wood Fern** (*Dryopteris spinulosa*) 1 to 1½ feet.
- B. **Maidenhair Fern** (*Adiantum pedatum*) 1 foot.
- A. **Lady Fern** (*Athyrium filix femina*) 2 to 3 feet.

Ferns For Wet Open Places.

Soil

- A. **Marsh Fern** (*Dryopteris thelypteris*) 1 foot.
- A. **Sensitive Fern** (*Onoclea sensibilis*) 1 foot.
- C. **Royal Fern** (*Osmunda regalis*) 2 to 3 feet.
- C. **Cinnamon Fern** (*Osmunda cinnamomum*) 4 to 6 feet.

Prices on Ferns.

25c each, 3 for 60c, 10 for \$1.50 or \$12.00 per 100.

OUR NATIVE ORCHIDS

It is not hard to grow Native Orchids but one must keep in mind the likes and dislikes of each variety. The orchids, as a rule, prefer an acid soil, so be sure to paint all cement work in your bog garden as cement contains lime. The soil should be composed mostly of peat, leaf-mold or No. 20 "Wild Life" Humus. The bog loving varieties must have plenty of moisture at all times.

Shooting Star

Showy Lady's Slipper

ABOVE PLANTS 25c EACH, 3 FOR 60c, 10 FOR \$1.50, OR \$12.00 PER 100.

We list the following as being the easiest to raise. If you wish other varieties, write us.

Pink Lady's Slipper or Moccasin Flower (Cypripedium acaule). Beautiful rose-purple flowers on stalk about 12 inches. Grows best in well drained, sandy soil always in the shade. 1 to 2 crown plants 35c each, 3 for 70c, 10 for \$2.00; 3 to 5 crown plants 50c each, 3 for \$1.40, 10 for \$4.00.

Yellow Lady's Slipper (Cypripedium pubescens). Pale yellow flowers, produces its best growth in moist well drained shady spot. Needs leaf mold soil (No. 20 "Wild Life" Humus). This orchid also does well in bog location. 1 to 2 crown plants 30c each, 3 for 80c, 10 for \$2.50; 3 to 5 crown plants 60c each, 3 for \$1.70, 10 for \$5.00.

Showy Lady's Slipper (Cypripedium spectabile). (See illustration). Just as the name implies, the finest and most showy of the Native Orchids. About 2 feet high with rosy-purple, almost white, flowers. Natural habitat is cedar swamps which make this plant ideal for shady bog gardens. Needs an acid woods soil (No. 20 "Wild Life" Humus) and is easily grown if given a little care. The unusual beauty of all the orchids more than repays for the little effort necessary to grow them. 1 to 2 crown plants 35c each, 3 for \$1.00, 10 for \$3.00; 3 to 5 crown plants 75c each, 3 for \$2.10, 10 for \$6.50.

Rattlesnake Plantain (Goodyera pubescens). 8 to 15 inches high, spike of white flowers. Grows best in well drained leaf mold soil (No. 20 "Wild Life" Humus). 25c each, 3 for 60c, 10 for \$1.50.

Showy Orchis (Orchis spectabilis). A beauty 4 to 7 inches high with deep pink flowers. Does best in moist leaf mold soil (No. 20 "Wild Life" Humus). 25c each, 3 for 70c, 10 for \$2.00.

ROCK GARDEN PLANTS

Columbine (Aquilegia). Long Spurred Hybrids. Assorted colors.

Rock Cress (Arabis alpina). Mats of white flowers. Spring.

Sea Pink (Armeria formosa). Flowers red. Summer. 9 inches.

Alpine Aster (Aster alpina). Flowers white. Spring. 6 inches.

Yellow Water Iris

Harebell (Campanula carpatica). Flowers light blue. Summer. 12 inches.

White Harebell (Campanula carpatica alba). Flowers white. Summer. 12 inches.

Blue Bells of Scotland (Campanula rotundifolia). Flowers blue. Summer. 12 inches.

Snow in Summer (Cerastium tomentosum). Flowers white. 9 inches.

Maiden Pink (Dianthus deltoides). Flowers red. Summer. 6 inches.

Coral Bells (Heuchera sanguinea). Flowers crimson. Late summer. 12 inches.

Catmint (Nepta mussini). Flowers lavender. All season. 12 inches.

Trailing Money Wort (Lysimachia). Flowers yellow. Early summer. 4 inches.

Phlox, Moss Pinks (Subulata alba). Flowers white. Summer. 4 inches.

Phlox (Sub. lilacena). Flowers lilac. Summer. 4 inches.

Phlox (Sub. rosea). Flowers pink. Summer. 4 inches.

Soap Wort (Saponaria ocymoides). Flowers pink. Summer. 6 inches.

Sedum Stone Crops. Sedum acre, **Gold Moss**. Flowers yellow. May and June. 4 inches.

Sedum asiaticum. Flowers pink. Summer. 8 inches.

Sedum album, White Stone Crop. Flowers white. July. 6 inches.

Sedum eversie. Flowers rose. October. 6 inches.

Sedum kamtschaticum, Variegated. Flowers orange-yellow. Summer. 4 inches.

Sedum lydium. Blue green foliage. 4 inches.

Sedum pruniatum. Flower golden yellow. July. 4 inches.

Sedum sarmentosum. Flower yellow. Trailing. 4 inches.

Sedum sexangulare. Flowers yellow. September. 4 inches.

Sedum spatulatum purpurea. Flowers dark yellow, red and grey foliage. 6 inches.

Sedum stolonifera. Flowers pink. July. 6 inches.

Sedum spurium. Flowers crimson. July. 6 inches.

Spider Houseleek (Sempervivum arch-noideum). Flowers bright red. Tops of leaves connected with silvery threads.

Roof Houseleek (Sempervivum tectorum). Above plants 25c each, 3 for 60c, 10 for \$1.50 or \$12.00 per 100.

HELPFUL SOIL FORMULAS

We have found the following non-acid soil formula best for rock gardens and for growing all shade loving wild flowers. (With the exception of those mentioned for acid soil). **CAUTION:** Be sure you have no clay or manure present in soil for rock garden plants and wild flowers.

Non-acid Soil Formula

- 1 part garden loam (no clay).
- 1 part clean sharp sand.
- 1 part limestone chips.
- 1 part leaf soil or No. 10 "Wild Life" Humus.

Acid Soil Formula

Use in damp, shaded places for Arbutus, Pink Moccasin, Dalibarda, Trillium, Shinleaf, Dwarf Cornel, Wintergreen and acid loving shrubbery.

- 1 part fine white sand.
- 1 part rotted pine and hemlock needles.
- 1 part rotted wood.
- 1 part rotted oak leaves.

Or

- 1 part fine white sand.
- 3 parts No. 20 "Wild Life" Humus.

Prices of "Wild Life" Humus

No. 10 "Wild Life" Humus. A natural woods soil. For all shade loving wild flowers; nature's own fertilizer. Excellent for potting. 2 bu. sack\$2.00

No. 20 "Wild Life" Humus. An acid woods soil. For all acid loving plants and shrubs, such as Trailing Arbutus, Wintergreen, etc. 2 bu. sack\$2.50

TERMS :

Prices quoted are F. O. B. Oshkosh, Wisconsin. Cash with order. Packing Free. We do not pay express or postage. All orders shipped express (which is the best way) collect. If you must have parcel post shipment, **include 10% of the value of your order** to cover postage. On all orders of \$5 or over, we will include extra plants to cover express or postage.

Marsh Mallow

Spring Beauty

ABOVE PLANTS 25c EACH, 3 FOR 60c, 10 FOR \$1.50, OR \$12.00 PER 100 UNLESS OTHERWISE INDICATED.

Gladstone Waterlily

WATERLILIES AND POOL PLANTS

A WATERLILY POOL . . . GEM OF THE GARDEN . . . is one of the most colorful and interesting spots in the home grounds. No rock garden is complete without it. Pools are inexpensive, easily planted and require no weeding. We include some of the aquatic and moisture-loving bog plants helping make your garden pool a natural beauty spot.

Here are some of the best northern grown hardy waterlilies. They are all prize winners and will produce an abundance of beautiful blooms in your water garden. We include easy cultural instructions for the planting and care with every order, and every plant we send you is **guaranteed** to produce a good growth for you.

Gladstone. This lily is the finest and largest white waterlily and truly called "The White King." (See illustration above). The blooms of brilliant white are often 6 to 8 inches across and have yellow stamens. Good bloomer and you will like it. Strong tubers or plants \$1.50 each.

Rose Arey. Beautiful cerise-pink blossoms are produced by this plant in abundance which makes it a real blue ribbon winner. This is the finest pink and will be a welcome addition to your pool. Nice strong tubers or plants \$1.50 each.

Chromatella. The best yellow. In addition to the bright canary color of the blooms, the leaves are mottled attractively and add color to the pool. Strong tubers or plants, \$1.25 each.

Glorioso. The name fits this lily well as it is the most glorious red water lily. The flower is sweet-scented, perfect formed, reopens daily for five or six days which makes it ideal for a cut flower. It is free blooming from the early part of the season to late fall and will often produce 150 blooms a season. No water garden is complete without this beauty. Strong tubers or plants \$3.50 each.

Comanche. This is like the weather—changeable — and is really a remarkable flower. Opens with a beautiful orange changing to a coppery-crimson as days go by. Has bright orange stamens which contrast greatly with the dark petals. We supply strong plants or tubers at \$3.50 each.

Fragrant White. This is our native white pound lily. Easily grown and the sweet-scented blossoms are fine for cutting. Nice strong roots or plants 25c each.

W. B. Shaw. Produces large flowers of rosy pink. Very sweet scented and blooms continually all season. Nice strong tubers, \$1.00 each.

Gold Ball. This is our native yellow pond lily. Has odd cup-shaped blossoms and peculiar seed heads. 25c each.

James Brydon. Flowers are a beautiful double crimson; free growing and has very attractive reddish-bronze foliage. This lily will add lots of color to your garden. Strong plants or tubers \$2.50 each.

Marsh Marigold

TROPICAL WATERLILIES

In the tropical waterlilies you find the shades of blue. These lilies can be used only one season while the hardy lilies may be used for years, but their brilliant beauty makes up for this loss. We offer here only one variety, the August Koch, which we think to be the finest day blooming tropical of a beautiful lilac or violet shade. It is a beauty and the price on strong plants is \$2.50 each.

We can furnish other tropicals if you want them.

LOTUS

There are few flowers in any garden with the romantic history of the beautiful lotus of the Nile. We list two kinds here, both very hardy.

American Lotus. The native lotus of America; has beautiful creamy-yellow blossoms often 8 to 10 inches across. A real beauty. Strong tubers with growing points, \$1.50 each; half-grown tubers with growing points 50c each. Well rooted seedlings 20c each, 10 for \$1.50, 100 for \$10.00.

Egyptian Lotus. A beautiful pink lotus that will produce many flowers and add a great deal of beauty to the pool. Strong tubers with growing points \$2.00 each. Half-grown tubers with growing points \$1.00 each. Well rooted seedlings 40c each, 10 for \$3.50, 100 for \$25.00.

Pickerel Plant

AQUATIC PLANTS

Shallow water, marsh or bog plants. Can be grown in pots placed in shallow water.

Pickerel Plant. Attractive glossy green arrowhead shaped leaves. Beautiful purple spiked blossoms produced entire season. Strong roots 3 for 50c, 10 for \$1.50. (See illustration).

Arrowhead. One of the most popular shallow water plants. Large arrowhead shaped leaves, white flowers with yellow centers. 3 for 20c, 10 for 50c.

Bur Reed. Odd-shaped seed balls produced by this plant. Very attractive. 4 to 5 feet plant. Roots or young plants: 3 for 40c, 10 for 75c.

Cat-Tail. Ideal for tall background effect. Very ornamental and works in nicely with Wild Rice and Plumed Reed Grass in tall background. 3 for 40c, 10 for 75c.

Plumed Reed Grass. Tall growing background plant 6 to 8 ft. Can be used nicely in mass plantings or pool corners. Very attractive. 3 for 40c, 10 for 75c.

Wild Rice. Tall, light green background plant with ornamental seed heads. Use in mass plantings and pool corners. Strong young plants, 3 for 40c, 10 for 75c.

Parrot Feather. Light, feathery green plant with long creeping stems, foliage opens and closes. Excellent for pool and pond edge. 3 for 25c, 10 for 75c.

Blue Water Iris. Native Blue Flag. Very attractive blue flowers. 3 for 60c, 10 for \$1.25.

Yellow Water Iris. Similar to Blue Flag, but has beautiful yellow blossoms. 3 for \$1.00, 10 for \$2.50.

Marsh Forget-Me-Not. Beautiful tiny blue flowers, with yellow center. Like moist soil or shallow water. 3 for 40c, 10 for \$1.00.

Marsh Marigold. Large deep yellow flowers; one of the earliest blossoms in the spring. 3 for 35c, 10 for \$1.00. (See illustration).

Cardinal Flower. Spikes of cardinal red make this plant one of the most striking flowers along the damp edges of your garden. 3 for 60c, 10 for \$1.65.

Blue Lobelia. Similar to the Cardinal Flower but has striking blue-purple flower spikes. 3 for 75c, 10 for \$1.75.

Umbrella Palm. Odd-shaped attractive umbrella-like formation of leaves at top of stem. Likes moist soil. 3 for \$1.00.

Swamp Loosestrife. Produces tall spikes of rosy-purple flowers. Very attractive and will do well both on dry land and in few inches of water. 3 for 85c, 10 for \$2.50.

FLOATING PLANTS

Water Hyacinth. Attractive, odd plant; produces orchid-like blossoms. Rapid grower. Bushy roots are ideal for spawning gold fish. 3 for 60c, 10 for \$1.50.

Duckweed. Small floating plants; look like tiny clover leaves; fish are very fond of the plants. 25c per portion, 50c per quart.

Water Lettuce. Very attractive; ornamental; sometimes called Shell Flower because of shape. 2 for 50c, 10 for \$2.00.

Azolla. Tiny, fern-like, green leaves which turn reddish color in fall. Per portion 50c.

OXYGENATING SUBMERGED AQUATIC PLANTS

Keep the water clear and pure.

Vallisneria. The best oxygenator in pools or aquariums. Has long slender ribbon-like leaves. 12 for 60c, 100 for \$3.00.

Elodea. Excellent under-water cover for young fish. Rapid grower. 50c per portion.

Ceratophyllum. Another excellent fast growing natural cover for young fish. Floats; gets nourishment from water. 35c per portion.

Potamogeton pectinatus. Produces an excellent bushy growth under water. 3 for 25c, 12 for 75c.

Myriophyllum. Has fine, needle-like leaves and produces an excellent growth with little effort. Excellent for fish spawning. 3 for 25c, 12 for 75c.

BARGAIN COLLECTIONS FOR POOLS !

The biggest value in waterlilies on the market today . . . 1 Gladstone, the best white, 1 Rose Arey, the best pink and 1 Chromatella, the best yellow, all for \$3.00 (Value \$4.25).

Ten of the finest bog and shallow water plants for \$1.00.

Ten assorted pool plants, both oxygenating and floating plants, for \$1.00.

Ten plants for around the edges of your pool and borders for \$1.00.

OTHER RELIABLE ATTRACTIONS FOR YOUR GARDEN

HARDY PHLOX

We offer 13 good varieties of Hardy Phlox.

Seibold. A very good bright pink or light red.

Fuerbrand. Brilliant orange scarlet. Flowers freely.

Von Lassburg. Large, long flowering. Pure white.

Bridesmaid. Pure white with crimson eye.

B. Comte, rich satiny Amaranth.

Africa, dark red, strong grower.

Miss Lingard. Early white.

Phlox — Wm. Kesseling, Blue-White Eye.

Phlox—Carol Vandenburg, Violet Blue.

Phlox—Lillian—Soft Clear Pink.

La Vague. Mauve Rose—Cherry Center.

Phlox—America Lavender, Pink, Late.

P. Struthers—Strong, Pink.

Fine for Rock Gardens.

Above Plants—Each 30c, 10 for \$2.50.

DIANTHUS

Dianthus Plumarius Pinks

Dianthus — Deltoides, very adaptable for Rock Gardens.

Dianthus—Atro—Coccineus. Double deep scarlet flowers.

Dianthus—Deltoides, 10 in.

Dianthus—Cyclops Red Hybrid.

Dianthus—Spring Beauty, Double.

Dianthus—Delight, Good Color Range.

Each 20c, 6 for \$1.00

SWEET WILLIAM

Sweet Williams Mixed.

Sweet Williams. Newport pink.

Sweet Williams. Scarlet.

Sweet Williams. White.

Sweet Williams — Dwarf mixed for Rock Garden or Border.

Each 20c, 6 for \$1.00

HOLLYHOCKS

Recommended for Back Grounds, height 6 to 7 feet. Mid-summer bloom.

Single Mixed. Each 10c, 12 for \$1.00.

Double Mixed.

Double Newport Pink.

Each 20c, 6 for \$1.00

DELPHINIUM

Delphinium—Bellamosa, 2' year.

Delphinium—Chinese Mixed.

Delphinium—La Martine. Long flowering, Dark Blue, 1 year.

Each 25c, 5 for \$1.00

Delphinium-Pacific—White, 1 year.

Delphinium-Pacific—Dark Blue Shades.

Delphinium-Pacific—Light Blue Shades.

Delphinium-Pacific—Mixture.

Each 40c, 3 for \$1.00

HARDY NATIVE VINES

Collected

Ampelopsis (Quinquefolia), Virginia Creeper.

Apios (Tuberosa), Potato-Bean.

Arctostaphylos (Uva-ursi), Bearberry rooted layers. Suitable for Rock Gardens.

Celastrus (Scandens), American Bittersweet.

Clematis (Virginiana), Virgin's Bower, large.

Lonicera (Halliana), Hall's Japanese Honeysuckle.

(Sempervirens), Trumpet Honeysuckle.

Rubus (Hispidus), Swamp Dewberry.

Vitis (Aestivalis), Summer Grape, 12 to 18 in.

(Cordifolia), Frost Grape, 12 to 18 in.

(Labrusca), Fox Grape, 12 to 18 in.

(Rotundifolia), Muscadine Grape, 12 to 18 in.

Each 25c, 5 for \$1.00

\$1.00 GARDEN SPECIALS

ALL BLOOMING SIZE — EACH COLLECTION \$1.00

10 Majestic Regal Lily Bulbs, 4 to 5 inches (Value \$2.50)

10 Siberian Coral Lily Bulbs, 2 years. (Value \$2.00).

60 Rainbow Mixture Gladiolus Bulbs, large bulbs (Value \$3.00).

5 Long Spurred Mixed Aquilegia or Columbines.

5 Sky Blue Delphinium (Larkspur) (Value \$1.50).

10 Assorted Phlox — Best varieties (Value \$2.00).

6 Mixed Hollyhocks.

6 Gaillardia, Golden Yellow and Red Everblooming.

5 Giant Shirley Fox Glove.

100 Senator Dunlap Strawberry Plants (Value \$2.50).

50 Mastadon Everbearing Strawberry Plants (Value \$2.00).

10 Lily-of-the-Valley Roots (Value \$2.50).

5 Chinese Lantern Plants (Value \$1.50).
